

Ramps for access

Because independence matters

Adjustable GRiP Ramp

The Adjustable GRiP Ramp is an incredibly strong and durable ramp that has been designed for doorways where the ramp cannot rest on or be fixed to the threshold.

Available in a stylish galvanised and black powder coated finish, our Adjustable GRiP Ramps provide 20+ years of anti-rust protection and are corrosion and slip resistant. The fully adjustable telescopic legs are simple to fit and can be positioned to accommodate all types of thresholds whilst the self-levelling and swivelling feet distribute weight more evenly, allowing for easier installation where width may be an issue.

- Height adjustable from 1:12 to 1:16 gradient
- Ideal for fragile PVC thresholds
- Unique GRP surface is self-draining and provides superior traction, even in the wet
- Self-supports - doesn't rest on threshold
- Telescopic legs and self-levelling swivelling feet
- Quick installation and maintenance free
- Suitable for wheelchairs and scooters
- Large maximum load capacity (up to 400kg)
- We manufacture ourselves - bespoke ramp sizes and extension plates also available.

5 SIZES SPECIFICATIONS

Code	Length	Width	Height range	Weight	Support load
R4AAGR03	900mm (3ft)	780mm (30in)	90-120mm (3.5-4.7in)	12.5kg (28lbs)	400kg (63st)
R4AAGR04	1200mm (4ft)	780mm (30in)	100-140mm (3.9-5.5in)	16kg (35lbs)	400kg (63st)
R4AAGR05	1500mm (5ft)	780mm (30in)	120-170mm (4.7-6.7in)	19kg (42lbs)	400kg (63st)
R4AAGR06	1800mm (6ft)	780mm (30in)	160-220mm (6.3-8.6in)	22.5kg (50lbs)	400kg (63st)
R4AAGR08	2400mm (8ft)	780mm (30in)	180-260mm (7-10.2in)	29kg (64lbs)	300kg (47st)

Above dimensions are for the main frame of the ramp. Extension and run-off plates are both standard sizes of 300mm each end. Please get in touch should you require different sizes supplying.
